To be eligible for the "Wild Cat Wednesdays" feral cat program, **I understand reduced cost spay/neuter is available solely for wild/stray cats at the cost of \$69 per cat.**

I certify that this cat has eaten/not eaten on the day of surgery.

I understand that since the surgery is being done at a lower cost, and certain options, such as pre-anesthetic blood work and take home pain medicine, will not be offered. I understand the risk that all animals face when undergoing anesthesia and will not hold the veterinarians and staff at SWTVMC liable should the cat not survive surgery or experience post-operative complications. Cats too ill for surgery may be rejected at the discretion of the veterinarian.

I understand that I can elect to have each cat have approximately 1/4 inch of its **right ear tipped** to mark it as "fixed", or I can choose to have a small tattoo placed on the abdomen instead of tipping the ear.

- I wish to have the ear tipped to mark the cat as being spayed/neutered.**
 I wish to have a tattoo placed adjacent to the surgery site to mark the cat as being spayed/neutered.
 I DO NOT wish to have the ear tipped or a tattoo placed adjacent to the surgery site.

I understand that each cat will receive a **Rabies vaccination as required by law**. Rabies vaccinations are \$16.00 per cat.

I understand that I can elect to have a dose of Revolution applied to each cat for the cost of \$22.35. Revolution helps protect against fleas and helps with the treatment and control of hookworms, roundworms, and ear mites.

- I wish to have Revolution applied.**
 I DO NOT wish to have Revolution applied.

I agree to pay all fees as set forth above and for additional medical treatment requested by me.
